

## OXNARD HOMELESS PREVENTION

*We Keep People Housed*

### Our Mission

To provide one-time financial housing assistance (up to \$1500) for people facing a financial crisis that could result in eviction and/or homelessness..

### Program Introduction

To receive assistance applicants are vetted by the Salvation Army or Project Understanding case workers and must provide proof of having:

- lived and paid rent in the City of Oxnard for at least 90 days;
- had a temporary problem that has prevented or will prevent them from paying rent this one time; and
- will be able to continue paying their own rent again going forward.

### Our Impact

Newly formed, in the first three months of 2024, OHP has already been able to assist 10 households, a total of 12 adults and 12 children, to remain housed. The cost was \$10,359.84, less than \$500 per person.

### Our Goal

We would like to be able to assist 125+ families and/or individuals this year which means raising at least \$65,000. With your support we can reach this goal and make a real difference in people's lives.
